

Redundant Testing system for DFA antenna

Date: Oct/26/2015-Nov/1/2015

Group number and Name: May1604

Client: FRCCP

Advisor: Gary Tuttle, Nathan Neihart

Attendees/Role: Mario, Jesús, Jean, Zhihao, Mukund

✓ Past week accomplishments (please describe as what, who, when)

- ❖ We met with Professor Gary Tuttle and Professor Nathan Neihart at a weekly meeting time.
- ❖ In this meeting, our group members answered several questions to Professor Tuttle and Neihart. These questions are last week Professor Neihart asked us, and Mario connected with Mr. Yacoub and got the answers.

✓ Plan for coming week (please describe as what, who, when)

- ❖ We will talk about the design document.
- ❖ We will get together briefly organize the audio recording of last week meeting.
- ❖ We will have a meeting with Dr. Mani Mina.
- ❖ We will have our weekly meeting on Thursday with Professor Gary Tuttle and Professor Nathan Neihart.

✓ Pending issues

- ❖ Organize the audio recording of last week meeting.

✓ Individual contributions

- ❖ Mario Perez made contact with Mark and Yacoub at FRCCP and get the answer from him, and draw the block diagram.
- ❖ Jin led the team meeting with Gary Tuttle and Nathan Neihart. He also led our group meeting this week.

- ❖ Jesus took notes during meetings.
- ❖ Mario, Mukund and myself (Zhihao) wrote the rough design document.
- ❖ I (Zhihao) wrote the weekly report.

✓ **Individual hourly contribution**

NAME	Hours this week	HOURS cumulative
Jin Cui	8	16
Zhihao Lia	8	16
Mukund Choudhary	8	16
Mario Perez	8	16
Jesús Hernández	8	16

✓ **Comments and extended discussion**

In this week, we met with Professor Gary Tuttle and Professor Nathan Neihart at a weekly meeting time. In this meeting, our group members answered and talked about some questions with our advisor. These questions are what we encountered in last week when we try to understand the circuit. Next week, we have three major things should complete: 1. Meet with Dr. Mina. 2. Regular meeting. 3. Design document.
